

IFI Sri Lanka

Implementation

- Disasters in Sri Lanka mainly caused by floods, droughts and landslides
- Basin water management (Irrigation and Mahaweli), Landslides (NBRO) and Urban water (SLLDC) mandate of different institutions
- Activities are implemented under various projects and integrated through bilateral and agency wide coordination.
- IFI plays an important role in providing a framework for coordination.
- Today's presentation:
 - Basin water – floods and droughts : Irrigation Department
 - Basin water – water resources for agriculture : Mahaweli
 - Landslides – NBRO
 - Urban Water – SLLRDC (Ministry of Megapolis and WD)
